A NIGHT
LIGHT
THAT
IS ALL
ABOUT
YOU

RGB NIGHT LIGHT WITH SOUND ALERTS

FROM A SIMPLE NIGHT LIGHT TO A MULTI- FUNCTIONAL DEVICE

- **16 MILLION COLOURS**

It gently illuminates the rooms of your home. You can choose between 16 million colours to **fit your personal preference**.

- **ADJUSTABLE FRAME DESIGN**

The frame design is flexible. You can choose between plastic and natural materials such as wood or glass. It will fit our interior design and **look great in any room**.

- **INTEGRATED BEEPER**

It has a hidden integrated beeper, so you can **use it as a unique combination of sound and visual colour alarm**.

- **CONTROL IT MANUALLY
OR WIRELESSLY
VIA A SMART PHONE**

It can be **controlled manually** via 4 touch buttons hidden under the surface and with the additional light switch **or wirelessly** via a smart phone or tablet. With multiple control options you will **keep the night light always close to you**, increasing your comfort with a touch of a button.

- **6 NATURE-INSPIRED
LIGHTING EFFECTS**

It comes with **6 different lighting effects which are inspired by nature** and simulate the ocean's colours, the rainbow and the sunrise.

- **PRE-PROGRAMMABLE**

It can be **pre-programmed** turn on automatically **when dark** or **when movement is detected**. It can also be programmed to turn on or off at any specific time.

GREAT HELP FOR A GOOD NIGHT'S SLEEP

- People respond negatively to full brightness during the night time, making them harder to fall asleep. RGB NIGHT LIGHT WITH SOUND ALERTS can help you to fall asleep by allowing you to choose your favourite colour and brightness.
- Emits just enough light at night so you can see your way and never stumble in the dark, without jarring you awake.
- It can help your kids to gently fall asleep and be programmed to turn off later using the time schedule function and to turn on when your kid's movement is detected.

TRANSFORM IT INTO YOUR PERSONALIZED ALARM

- Connect it to sensors and it will act as an alarm or doorbell, notifying you with a visual and sound signal when needed (in case of water leakage, motion detection or doorbell activation).
- Use it as a visual doorbell – set your night light to blink in desired colours without using the sound, making it perfect for families with small children and for the hearing impaired.

CAN HELP YOU SAVE MONEY

- Its energy efficiency will help you save energy and money. It emits enough light, making other lighting sources mostly redundant in places such as hallways, bedrooms, bathrooms etc. during the night time.

YOUR PERSONAL NIGHT LIGHT

CONTROL YOUR NIGHT LIGHT

WIRELESSLY and maximizing your comfort

- Connect it to your Z-Wave gateway (hub) and control it remotely via a smartphone

- Connect it to your Z-Wave gateway (hub) and pre-program it to work according to the scenes (such as the time schedule etc.)

PRE-PROGRAMMED SCENES

- Connect it to your Z-Wave sensors and devices (motion sensor, flood sensor, doorbell) and program it to work according to the sensors triggers

Z-WAVE SENSOR TRIGGERS

WITH YOUR FINGER

- With 4 touch buttons hidden under the surface

VIA WIRE

- Connect it to an additional light switch and control it like a regular light

LIGHT SWITCH

- Connect it to a motion sensor and it will turn ON / OFF

Z-WAVE MOTION SENSOR

SET THE PERFECT MOOD WITH DIFFERENT LIGHTING EFFECTS

The night light comes with different lighting effects which will ensure you a relaxing lighting experience to help you start the day with more energy or to soothe you after a tough day.

The lighting effects are inspired by nature and simulate six colour scenes: ocean, rainbow, sunrise and others.

The most unique is the sunrise scene which is designed to imitate the sun, helping you wake up more naturally. In a 10-minute timeframe, the night light will gradually increase the brightness from its minimum to its maximum amount.

This way you will wake up energized even on a cloudy day.

ONE DEVICE FOR MULTIPLE PURPOSES

RGB NIGHT LIGHT WITH SOUND ALERTS can be used as an innovative light source for a gentle and personalized illumination.

- Remotely choose between 16 million colours on your night light.

- Control the night light with 4 integrated TOUCH BUTTONS, which allows you:

- Turn the RGB Night Light ON / OFF
- Set the amount of red, green, blue and white colour allowing you to choose between 16 million colours
- Dim the brightness of the RGB Night Light
- Choose between 6 lighting effects.

- Remotely dim the night light or turn it ON/OFF (e.g. in yellow colour).

- Option to connect with the motion sensor which will allow automatic activation of the night light in any colour you like (e.g. in violet colour).

- Set an automatic low brightness value with the help of the integrated brightness sensor, which will allow automatic activation of the night light in any colour you like (e.g. in yellow colour).

- Option to connect and control the night light with the light switch.

UNIQUE COMBINATION OF SOUND AND COLOUR AND COLOUR

- The night light has an **integrated beeper** that notifies using sound and **visual blinking**.

The RGB NIGHT LIGHT WITH SOUND ALERTS can be used as an alarm with sound and visual notifications in case of danger.

It can be also used as an extension or as a substitute for your doorbell.

- When the **Z-WAVE DOORBELL** is activated, the night light can either start:
 - **blinking** (e.g. in green colour) and beeping
 - **blinking without beeping** (so you are not disturbed when you don't want to be, for example during the night or early morning).

- When the **MOTION SENSOR** detects any **movement**, the night light **starts blinking** (e.g. in red colour) **and beeping**.

- When the **FLOOD SENSOR** detects a **water leakage**, the night light **starts blinking** (e.g. in blue colour) **and beeping**.

THE RGB NIGHT LIGHT WITH SOUND ALERTS can be installed anywhere in the house:

- in flush mounting boxes at the height of the **light switch**
- in flush mounting boxes where you usually have **electrical sockets**

INNOVATIVE APPROACH TO NIGHT LIGHTS

Connected. Multi-purpose. Night Light.

The RGB Night Light with Sound Alerts has many unique features, which were developed to improve the quality of sleep and make your life more comfortable.

It is the only night light in the world which:

- Has an integrated beeper
- Can be controlled manually (via 4 hidden touch buttons) or wirelessly (via Z-Wave)
- Has an adjustable frame design
- Comes with 6 nature inspired lighting effects
- Can be pre-programmed according to your needs

MODERN AND ADJUSTABLE DESIGN

- Modern and **minimalistic design**
- **Adjustable frame** - option to choose between plastic and natural materials such as wood or glass
- Option to choose between **16 million colours** to fit your personal preference and give your personal touch to any room
- **Simple to install** - install it anywhere you like:
hallway, stairway, bathroom, WC, bedroom,
living room, garage, terrace,...
- Designed and manufactured in **EU**

HELPS YOU SAVE ENERGY

- Its energy efficiency will help you **save energy and money**
- It emits enough light, making other lighting sources mostly redundant in places such as hallways, bedrooms, bathrooms etc. during the night time
- Its energy efficiency will help you **save on your energy consumption**

FROM LIGHTNING
SOURCE TO YOUR
PERSONAL HOME
GUARD.
